

CNC Machinist

Job candidates will be responsible for setting up and operating large and small vertical and horizontal CNC machining centers, boring mills, Wire EDM and CNC slant bed and vertical lathes to make precision parts. The candidate must be able to work efficiently to produce high quality parts to meet rigid customer requirements.

Standard work week is 7am to 5:30 pm Monday thru Thursday with the possibility of overtime as needed. Candidates must be self-motivated and willing to work in a fast-paced environment.

Responsibilities/Requirements:

- Must be able to machine quality, close tolerance parts on manual or CNC machinery
- Must have exceptional computer skills
- Must have complete understanding of G-code programming
- Must be able to select and properly utilize cutting tools
- Must be able to work on more than one project at a time
- Must be willing to work overtime as needed
- Must be able to work as a team member
- Must pass background check and drug screening

Qualifications:

- High School Diploma or equivalent
- At least 5 years of previous experience setting up and operating CNC equipment
- Must be familiar with FANUC and HAAS CNC controls
- Must be able to machine quality, close tolerance parts on manual or CNC machinery
- Must be able to read and understand blueprints
- Must be knowledgeable with GD&T and technical documents

This is a full-time position with a salary range of \$20 - \$27/hour based on qualifications and work experience.

Benefits include:

- 401k match
- Dental Insurance
- Health Insurance
- Vision Insurance
- Life Insurance
- Paid vacation/Sick Leave
- Parental Leave
